Proposed School Description	
Provide the mission statement of the proposed school.	Excellence 2000 Network School Academy will provide a safe and positive school setting where all students will be taught the 21 st century skills in reading, writing, mathematics, science, and social studies. Students will also be able to demonstrate and apply lifelong learning skills necessary to become productive citizens. Our children will be taught and expected to learn at an accelerated instructional pace, in order to better assist those students who have not had success in a traditional school setting. Additional instructional time during after-school and Saturday School programs will provide "Time on Task" to help ensure student mastery of the basic academic skills.
In 100 words or less, briefly describe the instructional focus of the proposed school.	It is our aspiration to expand our educational model beyond Texas to reach more children that are at-risk of failing or struggling to meet state academic standards. It is our goal to expand this model focusing on mastering standards through accelerated teaching and learning. In addition to the basic academic program, music and physical fitness will be included to provide well rounded academic and social development for all students. It is our belief based on our past performance that an Excellence 2000 Network School Academy is needed and will benefit students, parents, and the community of Mississippi.
